DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 – 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,724,872 (Moore et al.) in view of U.S. Patent No. 5,742,905 (Pepe et al.).

With respect to claims 1 - 4, 6 – 12, 14 – 17 and 19 - 23 note that Moore et al. teach claimed limitations (see Abstract, Col. 2, line 66 – Col. 3, line 13, Col. 3, lines 37 – 40, Col.5, lines 28 – 32 and Figs. 2 - 4). What Moore et al. possibly do not teach is sending a predefined acknowledgement message to the calling device and sending the incoming call to voicemail. However, note Col. 8, lines 30 – 36 of Moore et al. Here, one is able send an acknowledgement message and send the call to call holding. In addition, note Col. 29, lines 56 – 64 of Pepe et al. where a call acknowledgement message is sent and the calling party sent to voicemail. It would have been obvious to one of ordinary skill in the art to have where a call acknowledgement message is sent and the calling party sent to voicemail as taught by Pepe et al. into the Moore et al. system, as such would only entail the substitution of one well known routing pattern for another.

With respect to claims 5 and 18, see Col. 4, lines 38 – 45 and Col. 6, line 66 – Col. 7, line 1 and Col. 7, lines 18 – 45 of Moore et al..

With respect to claim 13, putting a caller on hold before sending a response would read on such a limitation (see hold button 230 of Moore et al.).

Response to Arguments

Applicant's arguments with respect to claims 1 - 23 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
